HOW WE WORK

1

Understand the Requirements

We start by understanding the client's goals, challenges, and project requirements.

2

Plan & Development

We design, approve, and develop the solution with a focus on performance, usability, and reliability.

3

Deliver & Support

We deliver the final solution and provide ongoing support, updates, and improvements when needed.

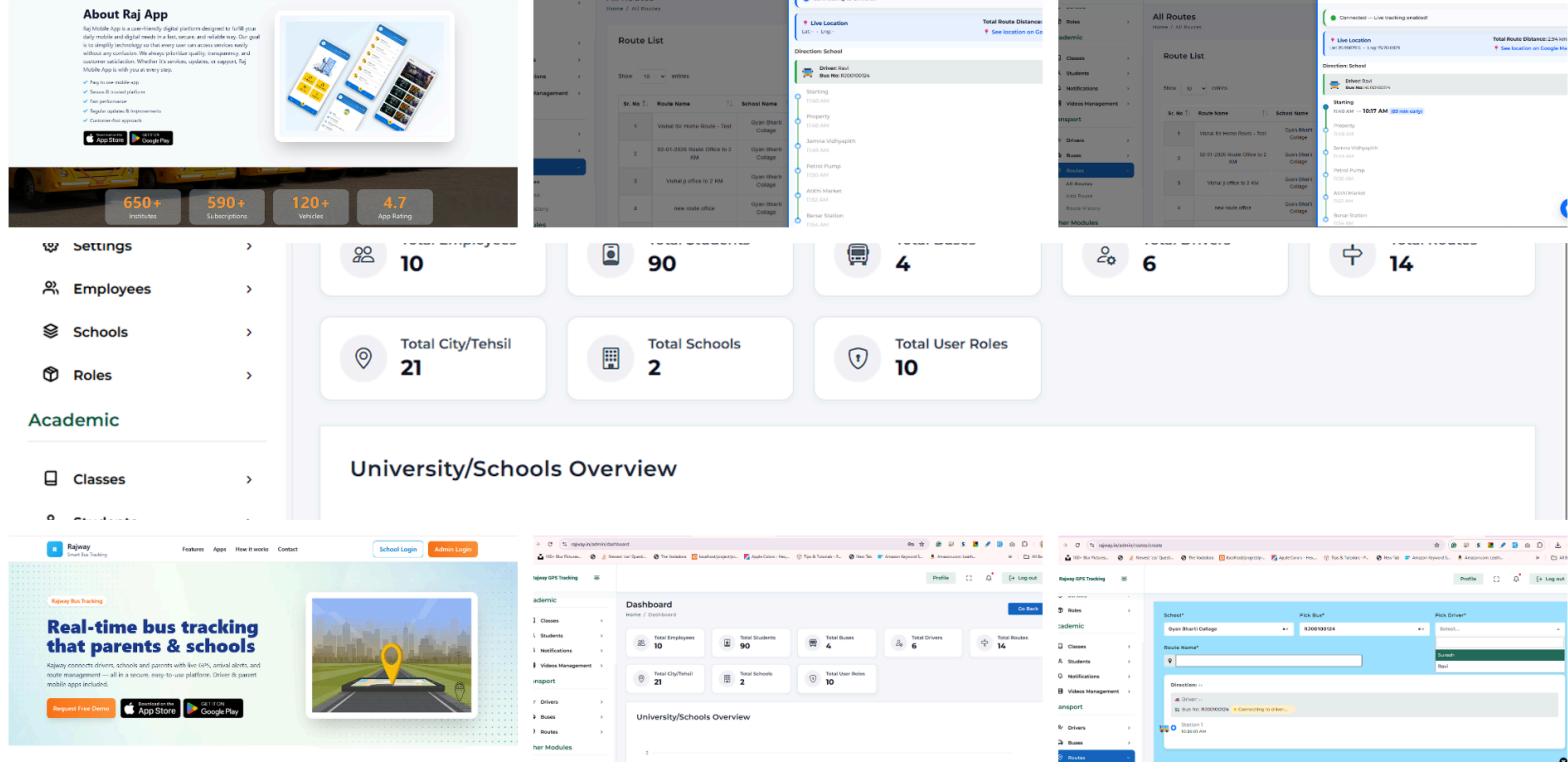

Projects by W.Ventures

We build scalable, secure, and intelligent digital products across industries including Transportation, Education, E-Commerce, Real Estate, and Manufacturing.

Project 01

Rajway – GPS Bus Tracking & School Management System

Industry: Transportation & Education

URL : www.rajway.in

Project Overview

Rajway is a comprehensive GPS-based school and college bus tracking platform designed to enhance student safety, communication, and operational efficiency.

The system connects drivers, students, parents, teachers, and school administrators through dedicated mobile applications.

Key Features

- Real-time GPS bus tracking
- Live route visualization
- Bus stop-wise tracking (know exactly which stop the bus is at)
- Driver switching & route reassignment
- Instant live notifications to parents & students
- Emergency alerts & status updates

Educational Management Features

- Teacher attendance marking
- Student attendance reports
- Assessment & test management
- Administrative dashboards for principals and school management

Platforms & Technology

- Mobile Apps (Android & iOS)
- Backend APIs & Real-time Tracking
- Secure role-based access (Driver, Parent, Student, Teacher, Admin)

Book Property Your Search.

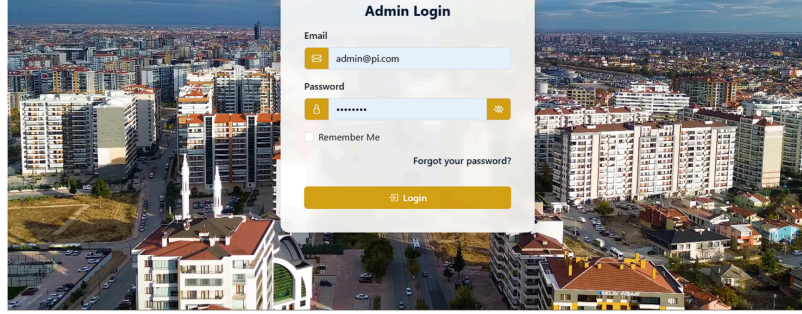

Map View

Click on the map to select a location to view property details and make quick connections to accelerate your deal.

Property View

Set filters and swipe right to save a property so you can dig into the details or swipe left on properties that do not meet your criteria.
